The MOST PROFOUND MEDICINE is produced within your own being – FOR FREE! Ancient physicians and philosophers in Asia refer to this as THE GOLDEN ELIXIR. You cannot buy this medicine. You can only make it yourself. Dr. Jahnke will explain:

- Why it is easy and inexpensive to produce The Golden Elixir
- Contemporary research – neuroplasticity, genomics and physics
- Ancient Chinese medicine and philosophy
- The Fountain of Youth within our own being
- Qigong - accessible Mind-Body Practice - the mother of Tai Chi
- A breath practice that lowers blood pressure, reduces inflammation and neutralizes insomnia.

You will re-discover the portal to your own deeper self. The Golden Elixir goes beyond longevity, health and wellbeing. Can we become immortals? Are we already immortal? Dr. Jahnke will reveal fascinating insights on Inner Alchemy, the Golden Elixir AND Immortality.
